

# Collaborative Artworks

## LIST OF WORKS

8-minute, 11-second loop

1.

Amanda Pfister & Manda Remmen

*Unite, Unfasten, Undo*

2011, Video, TRT: 5:07

The making of *Unite, Unfasten, Undo* was a positive experience working with another artist/friend and one in which we complimented each other with our different skill sets. We strengthen our different ideas into a cohesive art piece and the collaboration really fueled our creative practices together and separately.

2.

Jennifer Koe (photography) /

Nathan Filbert (text)

*Our Vegetal Nature*

Over a couple of months Jennifer mailed me photographs and I began making language in response to them... we sent them back and forth (we've never met) until we felt satisfied with both representations.

3.

Ann Resnick with Bethel Kidrun

retirement community residents

*For You*

2013, cut paper, wire, fans, dimensions variable

*For You* was created for the exhibition, *Inconsolable*, at Bethel College, November 2013, with the assistance of residents at Bethel Kidrun retirement community

4.

Jessica Wasson, Patrick Calvillo,

Alex Thomas, Ian Blume, Gray Brand,

Bernardo Trevizo, Drew Davis, Jordan

Kirtley, Peter James, Tim Maggard

*Let's Make Shit Happen*

2015, video, TRT: 1:06

Without collaboration there would be no script, actors, illustration, props, camera, lighting, sound and so much more. We found that through collaboration, we are able to focus and sharpen the skill set that is unique to each individual.

5.

Kevin Mullins in response to the work of Anne Schaefer

I responded to the second Harvester artist Anne Schaefer. I printed a series of screen prints that played off many of her ideas.
