

Find all of the:   
and color!

How many  did you find? : \_\_\_\_\_

# Feelings!

Cami Morgan  
@camiim.art

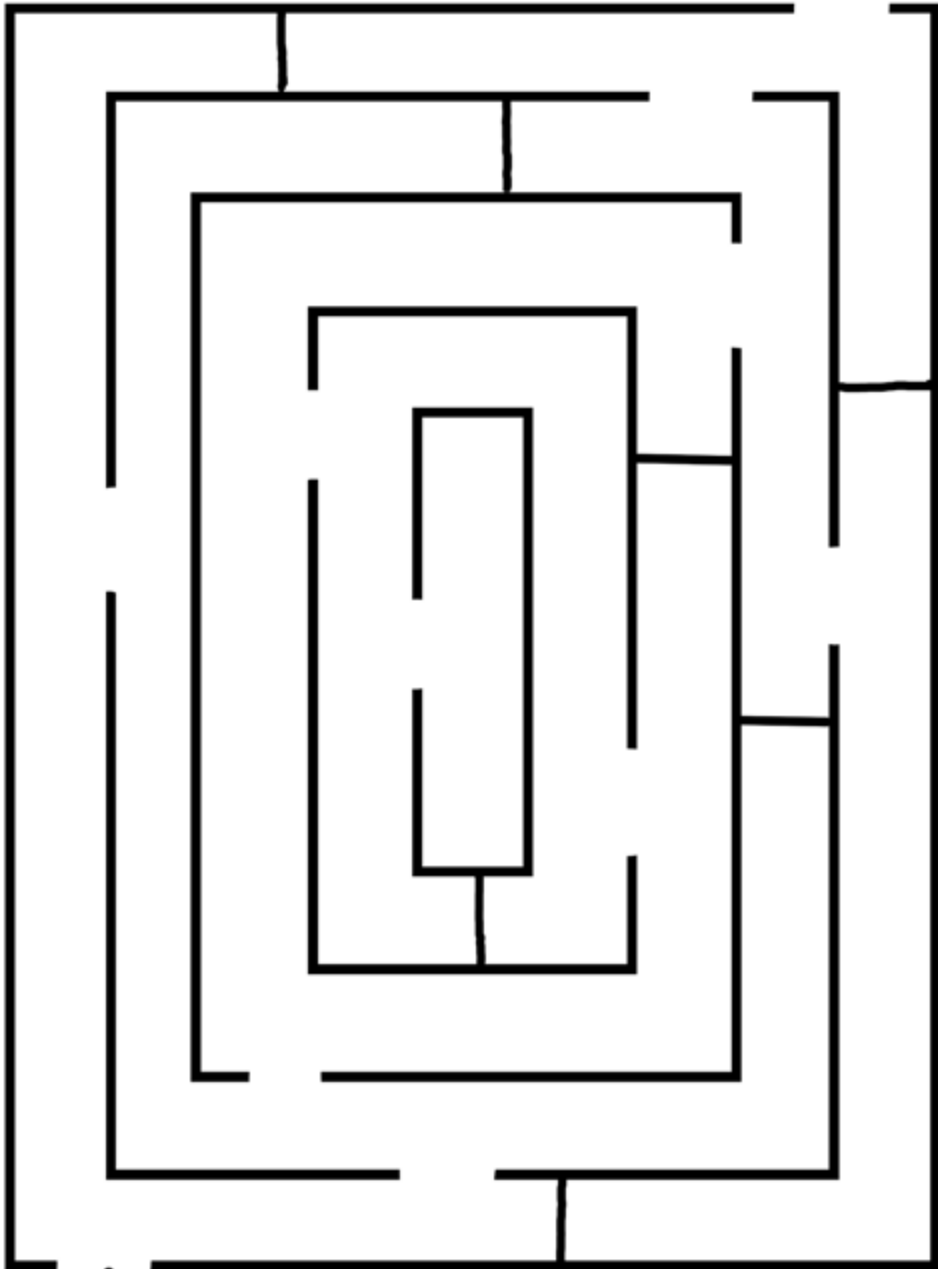

Write each feeling below

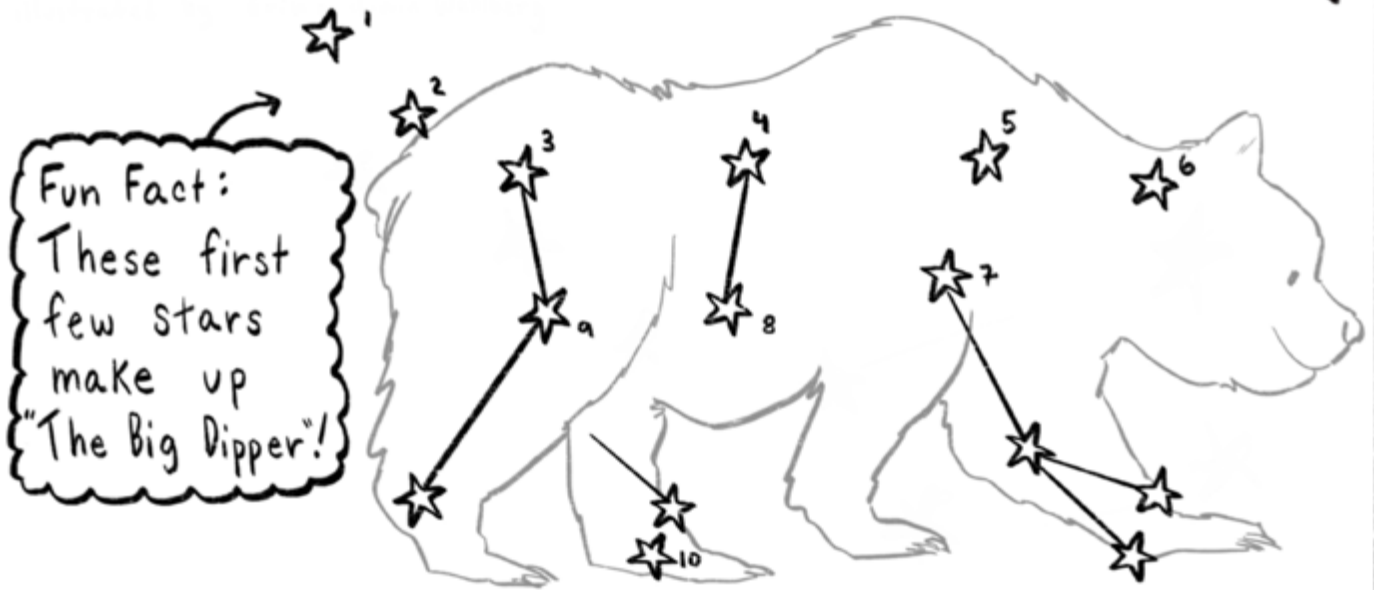

How are you feeling today?

\_\_\_\_\_

Help the rabbit find the carrots!

# Connect the Stars!

Look! It's the "Ursa Major" constellation!

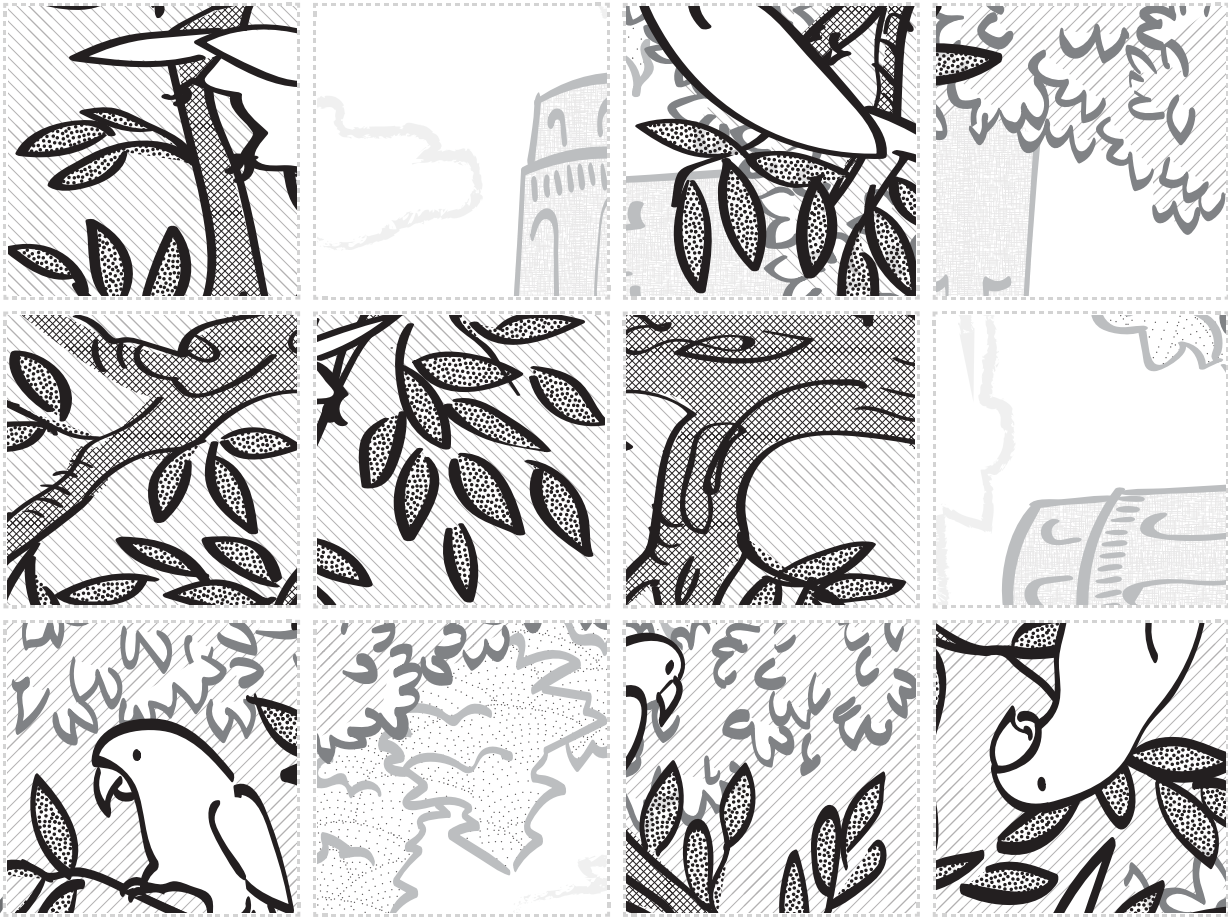

What are constellations? Constellations are groups of stars that form a pattern in the night sky. The patterns may take shape of animals, people, mythical creatures, or objects.

# Cut and Paste Puzzle

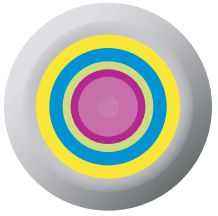

Sarah Chieko Bonnickson @sa\_chi\_bon

**Question:** What kind of animal lives on Telegraph Hill in San Francisco?

Cut out the squares above, then tape or glue them on the grid to the left to make a picture of parrots near Coit Tower. When the puzzle is done, you can color it!

**Answer:** Parrots!

# Rainbow Star ID Card!

Hi Everyone!

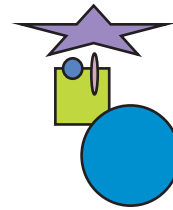

I know it was a long journey, but you are finally here.

## The Rainbow Star

**Here everyone is made from uniquely beautiful shapes and colors.**

To begin, you need to make an ID. Firstly pick 4 shapes you like below, and resize them. Then you combine these shapes in whatever way you like and give them some colors!

Remember you can always make your own shape. Be creative!

This is how I look like, show me yours in the white box below!
